

When your shipment needs a higher level of security, Freight Solution Providers offers our Dual Driver Protection Services, ensuring a high level of security and visibility for your freight.

FSP has been providing secure services for 22 years, and our experience means your freight will arrive on time, damage free, and secure.

From the pickup, when the customer signs the bill of lading and affixes the seal to the shipment, to the delivery, when the seal is broken and final documentation is signed, our Dual Driver Protection Services provides the security and visibility you need.

Included Features

- Two drivers on every delivery
- Dedicated truck for your delivery only, direct delivery
- Numbered security and asset seal
- Tally log
- Constant tracking
- Estimated time until delivery

KEY BENEFITS

Visibility

FSP provides a higher level of visibility with our online real-time tracking and immediate access to recovered asset information detailing tag numbers and specific condition of all equipment

Communication

FSP communicates at every step of the process with email, calls, EDI and automated reports to the shipper and our customer keeping all involved informed in a timely fashion

Coordination

FSP coordinates closely with the shipper and our customer beginning with a booking confirmation and emailed site survey including a pre-filled in expected asset recovery list to ensure a smooth hassle-free experience.

Security

Qualified Packing Practices, Secure Transportation in our closed network, an exclusive truck for your shipment, truck security, and seal tracking and verification ensure all equipment is delivered safely to their destination.
